Members born between 1st January 1949 and 31st December 1954 inclusive have a normal retirement age of 66 years of age.

An active member of the Single Scheme working at 50% would need to have the potential for 18 years to the normal retirement age.

Your working-pattern at the date of submission of this *Expression of Interest Form* is deemed to be the work-pattern applicable in calculating your potential to serve this 9 FTE years' period.

Any future reduction to your work-pattern may impact on your potential for 9 FTE years' service prior to your normal retirement age provided for under the terms of the Single Scheme. Where you are no longer eligible to avail of the Single Scheme purchase facility **you will receive a refund of the purchase cost paid by you** and any purchased referable pension and/or lump sum amounts under the terms of the facility will no longer comprise part of your final retirement benefits

age 67*
- *Born on or after 1st of January 1961:
age 68*

- If there is a Pensions Adjustment Order in place in respect of your Single Scheme benefits this may impact on the value of additional retirement benefits you may purchase under the terms of the purchase facility

- If you have received a refund of contributions in respect of prior pensionable employment(s) with a Relevant Authority or Authorities you may (if eligible) consider repaying the refunded contributions plus applicable compound interest and potentially restore associated referable amounts accrued in respect of that employment and time towards vesting before consideration is given to purchasing additional retirement benefits.
