HIGHER EDUCATION SYSTEM PERFORMANCE FRAMEWORK
2014-2016
1. **Context – National Strategy for Higher Education to 2030**

The National Strategy for Higher Education to 2030 recommends that a steering and performance based framework for the system governance of higher education in Ireland\(^1\) is put in place. This framework, which is summarised in fig. 1.1 sets out the areas of responsibility for setting national priorities of Government and related short to medium term objectives for the higher education system.

The HEA will use this framework as the context for conducting a process of strategic dialogue with individual institutions where institutions will agree performance compacts with the HEA with institutional KPIs reflecting their contribution to overall system objectives.

The system performance framework is multi-purpose. The purposes of the framework can be summarised as follows:

- To hold the system accountable for performance for the delivery of national priorities and monitor performance of the system as a whole;
- To articulate all the expectations on the system of different areas of government/agencies across the various dimensions of higher education activity;
- To increase the visibility of performance of the system to Government and the wider public;
- To contribute to system and policy development by highlighting structural and other deficits including data capacity;
- To allow HEIs to identify their strategic niche and mission and agree a performance compact aligned with funding with the Higher Education Authority

1.1 **Development of high level system indicators**

A set of high level system indicators and monitoring sub-indicators have now been developed and agreed across relevant Government departments and agencies. They have been informed by international best practice\(^2\). The indicators have been chosen to reflect the purposes of the framework and to form the basis for the HEA to assess how well the system is performing in relation to each system objective. It is recognised that they will need to be analysed within the context of the overall strategy, so as not to create perverse impacts. The indicators range from targets set and agreed by Government in both national and international policy contexts, to more descriptive indicators included to reflect the level of different kinds of activity in the system while being agnostic to their extent. International benchmarks have been included where appropriate to reflect Irish system performance in both the EU and wider OECD context.

Also included in the tables are “essential deliverables”, these being various structures, processes, mechanisms, policy and legal instruments which must be put in place or further developed if the desired outcomes are to be achieved. These will form an essential component of the contextual analysis of the HEA, who will report back to the Minister for Education and Skills on an annual basis in a system performance report. The indicators will

---

\(^1\) Recommendation 17, National Strategy for Higher Education to 2030, January 2011

\(^2\) Constructing an indicator system or scorecard for higher education, a practical guide, UNESCO
be kept under review by the Department and the Higher Education Authority as the system performance framework is rolled out over the coming period.

2. National Priorities
As noted by Government, national priorities and key system objectives for the period 2014-2016 are as follows:

1. Economic renewal and development at national and regional levels
2. Social cohesion, cultural development and equity at national and regional levels
3. Public sector reform towards greater effectiveness and efficiency
4. Restoration of Ireland’s international reputation

2.1 Key system objectives for 2014-16:
1. To meet Ireland’s human capital needs across the spectrum of skills by engaged institutions through a diverse mix of provision across the system and through both core funding and specifically targeted initiatives;

2. To promote access for disadvantaged groups and to put in place coherent pathways from second level education, from further education and other non-traditional entry routes;

3. To promote excellence in teaching and learning to underpin a high quality student experience;

4. To maintain an open and excellent public research system focused on the Government’s priority areas and the achievement of other societal objectives and to maximise research collaborations and knowledge exchange between and among public and private sector research actors;

5. To ensure that Ireland’s higher education institutions will be globally competitive and internationally oriented, and Ireland will be a world-class centre of international education;

6. To reform practices and restructure the system for quality and diversity;

7. To increase accountability of autonomous institutions for public funding and against national priorities.

Essential Deliverables:
1. Structures put in place in all higher education institutions to improve liaison with enterprise and links with public sector employers
2. The use of learning outcomes and the National Framework of Qualifications as a tool for dialogue between labour market and the higher education system.
3. The active engagement and participation of the labour market in the development and review of higher education programmes in HEIs based on learning outcomes in NFO.
4. Expert Group on Future Skills needs/Forfás skills reports
5. Structures in DES to facilitate enterprise engagement (Enterprise Engagement Forum)
**Key System Objective 2:**
To promote access for disadvantaged groups and to put in place coherent pathways from second level education, from further education and other non-traditional entry routes

**Essential Deliverables:**
1. Development and implementation of a new National Access Plan from 2014 aligned with national priorities and system indicators
2. Review of institutional access plans to ensure measurable outcomes against objectives of new plan
3. Development of LINKS scheme between FE and HE institutions
4. Development of alternative entry routes into higher education
5. Springboard initiative and evaluation
6. Monitoring and measuring the implementation of National Policies and Procedures relating to the Access, Transfer and Progression Plan (ATP) particularly in relation to the articulation to higher education and within higher education in the proposed regional clusters
**Key System Objective 3:**
To promote excellence in teaching and learning to underpin a high quality student experience

**Essential Deliverables:**
1. Monitoring of how all HEIS are embedding focus on excellence in teaching and learning within institutional strategies, evaluation and change programmes
2. Full engagement of all HEIs with the National Forum for the Enhancement of Teaching and Learning
3. Systems put in place to appropriately monitor staff contact hours with students on an institutional and sector basis as workload allocation models become transparent
4. Institutional follow up on statutory institutional reviews to be reflected in institutional strategic submissions for strategic dialogue process to HEA
5. Internal quality assurance review/improvement activities and other quality assurance mechanisms
7. Assessment of integration of institutional strategic planning and quality assurance planning by HEA as part of strategic dialogue process
8. Implementation of subject benchmarks across all disciplines
9. Implementation of Transition reform agenda
Key System Objective 4:
To maintain an open and excellent public research system focused on the Government’s priority areas and the achievement of other societal objectives and to maximise research collaborations and knowledge exchange between and among public and private sector research actors

**International Benchmark**

- HERD as a % of GNP
- Position in OECD

**Essential Deliverables:**

1. Ongoing implementation of the recommendations of the National Research Prioritisation Exercise by all research funding agencies and Departments. The monitoring of HEI performance in the areas of research and innovation will take account of developments under the Framework for monitoring public investment in STI
2. Implementation of the National Framework of Doctoral Education to be launched shortly by HEA and QQI
3. Deeper engagement between HEIs and enterprise, and enhanced collaborations between HEIs
### Key System Objective 5:
To ensure that Ireland’s higher education institutions will be globally competitive and internationally oriented, and Ireland will be a world-class centre of international education

<table>

**Essential Deliverables:**
1. Implementation of the landscape reform agreed and published on May 30th 2013
2. Progress against agreed milestones and timeframe of implementation of landscape process including TU designation/ITE recommendations and Regional Cluster development process
3. Undertaking of discipline reviews by HEA
4. Academic plans to be agreed by participant HEIs in regional clusters and reviewed by HEA as part of their analysis in relation to the development of a well-co-ordinated and rational distribution of programmes based on institutional strengths and student demand.
5. Establishment of the Irish programmes and awards database by QQI
**Key System Objective 7:**
To increase accountability of autonomous institutions for public funding and against national priorities.
